SUMMARY

I recently finished a Ruby/Javascript/Rails web development course at Epicodus in Portland, OR. During my time at Epicodus I learned how to build powerful back-end server applications, how to create interactive front-end user interfaces, and I also learned how to think like a programmer and find the resources needed to complete projects. What I love about programming is its abstract nature and all of the epiphanies that occur throughout the learning process. As an artist, I'm interested in the creative aspects of programming and hope to explore new avenues of creativity in this field.

SKILLS

- CSS
- jQuery
- JavaScript
- Git
- Ruby
- Marketing
- Social Media
- Test Driven Development
- HTML5
- Training
- HTML
- Web Development
- SQL
- Web Design
- Leadership
- Social Media Marketing
- Social Networking
- Ruby on Rails
- Management
- WordPress

EXPERIENCE

Spot Color Marketing

08 / 2015 - Present

Web Development Intern

For my internship at Spotcolor Marketing I'm building a website for a non-profit that works with troubled youth. The site is being built with a Wordpress "Elegant Theme". I also help out with other incoming website issues from their clients.

Art by FreshGhost

02 / 2004 - Present

Artist/Painter/Owner

artist, painter, promoter, marketer, website designer

Stock Options

10 / 2010 - 10 / 2014

Production Manager/Lead Cook/Quality Control

I worked along side the production workers and supervised the entire food production operation from start to finish ensuring all products were processed in accordance with strict USDA standards while following the guidelines of a HACCP plan.

Darigold

09 / 2003 - 04 / 2010

Production Operator

I had various positions including Quality Control, Mix and Blend, Fluid Milk Receiving, UP Filer Operator, and Serac Filler Operator.

EDUCATION

Epicodus

2015 - 2015

web development
